Subject Index

Abnormalities, radiographic, of the hand in patients with the Mayer-Rokitansky-Küster-Hauser syndrome, evaluation of 227
Abnormalities, skeletal, of acrogeria, a progeroid syndrome 463
Acrogeria, skeletal abnormalities of, a progeroid syndrome 463
Acromioclavicular gouty arthritis, bilateral, with pseudotumor of the outer end of the right clavicle; saturnine gout (*case report*) 589
Acromion, eosinophilic granuloma of the (*case report*) 333
Adjuvant, helpful, for unrecognized fractures of the carpus: the carpal tunnel view 45
Adult cervical spine, the value of retropharyngeal soft tissue measurements in trauma of the 98
Adult hip, chronic septic arthritis of the: computed tomographic features 513
Adult T-cell leukemia (ATL) (*case report*) 412
Aluminum toxicity, experimental, in growing bone, radiographic manifestations of 209
(Analgesic hip) unilateral, rapidly destructive arthropathy of the hip (*case report*) 342
Anatomy, normal: high-resolution magnetic resonance imaging of the wrist 128
Aneurysmal bone cyst of T8 (*case report*) 428
Ankle joint, ball-and-socket 447
Ankylosing spondylitis presenting as juxta-articular masses in females 142
Announcements 89, 181, 260, 351, 511, 606, 689
Appearances, the computed tomographic, of cherubism 6
Arteriography, selective digital subtraction, in necrosis of the femoral head 270
Arthritis, bilateral acromioclavicular gouty, with pseudotumor of the outer end of the right clavicle; saturnine gout (*case report*) 589
Arthritis, chronic septic, of the adult hip: computed tomographic features 513
Arthritis in rats, experimentally induced, phosphorus-31 magnetic resonance spectroscopy of 183
Arthritis, rheumatoid, bone mass in patients with . . . 556
Arthritis, rheumatoid, productive osseous changes about the wrist in 397
Arthritis, rheumatoid, with massive osteolysis and deformity of cervical spine; consequent neuropathic arthropathy of the shoulders (*Open-quiz solution, case report*) 232
Arthritis, secondary degenerative, bilateral scaphoid-radial encroachment as part of disruption of the scapholunate ligament with (*case report*) 670
Arthrography, wrist: the value of the three compartment injection technique 539
Arthropathy, consequent neuropathic, of the shoulders; rheumatoid arthritis with massive osteolysis and deformity of cervical spine (*Open-quiz solution, case report*) 232
Arthropathy, pyrophosphate, of the wrist, scaphoid-trapezium-trapezoid dissociation in (*case report*) 685
Arthropathy, radiologic features of a pyrophosphate-like, associated with long-term dialysis 437

Arthropathy, unilateral, rapidly destructive, of the hip ("analgesic hip") (*case report*) 342
Arthroplasty, total hip, the potential of computed tomography in visualising structures inside the metal cup in surface-replacement 201
Autopsy findings and seventeen year follow-up in a case of massive osteolysis 291
Autosomal dominant type of endosteal hyperostosis with unusual manifestations of sclerosis of the jaw bones 48
Ball-and-socket ankle joint 447
Bilateral acromioclavicular gouty arthritis, with pseudotumor of the outer end of the right clavicle: saturnine gout (*case report*) 589
Bilateral scaphoid-radial encroachment as part of disruption of the scapholunate ligament with secondary degenerative arthritis (*case report*) 670
Biopsy, skeletal, computed tomography guidance for . . 644
Bisphosphonate treatment with ADP in a child suffering from osteogenesis imperfecta, radiological manifestations of 360
Bizarre parosteal osteochondromatous proliferation (BPOP) (*Open-quiz solution, case report*) 481
Bone cyst, aneurysmal, of T8 (*case report*) 428
Bone cyst of the scapula, solitary (unicameral, simple) (*case report*) 493
Bone destruction, massive, of sacrum, myxopapillary ependymoma of filum terminale with (*case report*) 485
Bone formation after distraction epiphysiolysis in the rabbit, the use of computed tomography to quantitate 52
Bone formation, extensive, observed over a period of 13 years, primary synovial osteochondromatosis of the knee (*case report*) 660
Bone formation, reactive endosteal 545
Bone, growing, radiographic manifestations of experimental aluminum toxicity in 209
Bone loss in limbs with decreased or absent sensation: ten year follow-up of the hands in leprosy 452
Bone mass in patients with rheumatoid arthritis 556
Bone metastases, pheochromocytoma presenting as musculoskeletal pain from 552
Bone metastases, the periosteal sunburst reaction to. A literature review and report of 20 additional cases 629
Bone, postradiation sarcoma of, in Hodgkin disease . . 524
Bone, primary leiomyosarcoma of. A clinical, radiographic, pathologic-anatomic, and prognostic study of 16 cases 364
Bone structures in X-ray images, microdensitometric analysis of 190
Bone, the role of magnetic resonance imaging in giant cell tumor of 635
Bones of the hand and foot, metastatic tumours of. A comparative review and report of 43 additional cases 387
Bony sequestration, computed tomography and plain film appearance of a: significance and differential diagnosis 117
Brachydactyly, distal phalangeal, secondary to healed renal osteodystrophy 312
"Break dancer", florid cortical and periosteal reactions due to stress fractures of the right femur and left calcaneus in a (*case report*) 581
Breast cancer, bilateral, in two long-term survivors, appearance of: elective whole-lung irradiation in osteosarcoma treatment 133
Bursa, ischial, and inferior radioulnar joint: idiopathic synovial chondromatosis in two unusual sites . . . 205
Buttock, right, calcified leiomyoma of the soft tissues of the (*case report*) 252
Cadaver hand, imaging studies of the, using transmission ultrasound 474
Calcaneal fractures, intra-articular: computed tomographic analysis 105
Calcaneal spurs, reversed, in children 17
Calcaneus, chondromyxoid fibroma of the (*case report*) 675
Calcaneus, left, and right femur in a "break dancer", florid cortical and periosteal reactions due to stress fractures of the (*case report*) 581
Calcified leiomyoma of the soft tissues of the right buttock (*case report*) 252
Calf hematoma – computed tomographic and magnetic resonance findings 393
Cancer, bilateral breast, in two long-term survivors, appearance of: elective whole-lung irradiation in osteosarcoma treatment 133
Carpal tunnel view: helpful adjuvant for unrecognized fractures of the carpus 45
Carpus, helpful adjuvant for unrecognized fractures of the: the carpal tunnel view 45
Cartilage, triradiate, chondroblastoma arising in the. Report of two cases with review of the literature . . . 216
Cartilaginous tumors involving the epiphysis at 1·5 Tesla, the magnetic resonance imaging appearance of . . . 647
Cerebrotendinous xanthomatosis (*case report*) 346
Cervical immobilization collar, Nec-Loc, pseudofractures due to 460
Cervical spine, adult, the value of retropharyngeal soft tissue measurements in trauma of the 98
Cervical spine, deformity of, and massive osteolysis, rheumatoid arthritis with; consequent neuropathic arthropathy of the shoulders (*Open-quiz solution, case report*) 232
Cervical spine, osteochondroma of the (*case report*) . . 170
Cervical spine trauma, acute, three-dimensional computed tomography in: a preliminary report 261
Chemonucleolysis, the effect of spondylosis on the outcome of 560
Cherubism, the computed tomographic appearances of 6
Chest wall and sternum, nodular sclerosing Hodgkin disease involving (*case report*) 166
Childhood, the symptomatic hip in: scintigraphic findings in the presence of a normal radiograph 383
Children, reversed calcaneal spurs in 17
Chondroblastic osteosarcoma: clear-cell variant of femur (*case report*) 336
Chondroblastoma arising in the triradiate cartilage. Report of two cases with review of the literature . . . 216
Chondroblastoma involving C5 and C6 (*case report*) . . 604
Chondrodysplasia punctata. Report of two cases . . . 223
Chondroid syringoma, malignant, skeletal metastases secondary to (*case report*) 657
Chondrolysis, acute, complicating Legg-Calve-Pethes disease 377
Chondromatosis, synovial, (osteochondromatosis) of the right hip: "hidden" radiological manifestations (*case report*) 504
Chondromyxoid fibroma of the calcaneous (*case report*) 675
Chondroplasia, spondylometaphyseal, with an unclassified mucopolysaccharide in the urine ("generalized enchondromatosis with mucopolysaccharidurıa") (*case report*) 175
Chordoma, sacrococcygeal. A clinicoradiological study of 60 patients 37
Chronic septic arthritis of the adult hip: computed tomographic features 513
Clavicle, pseudotumor of the outer end of the right, bilateral acromioclavicular gouty arthritis with: saturnine

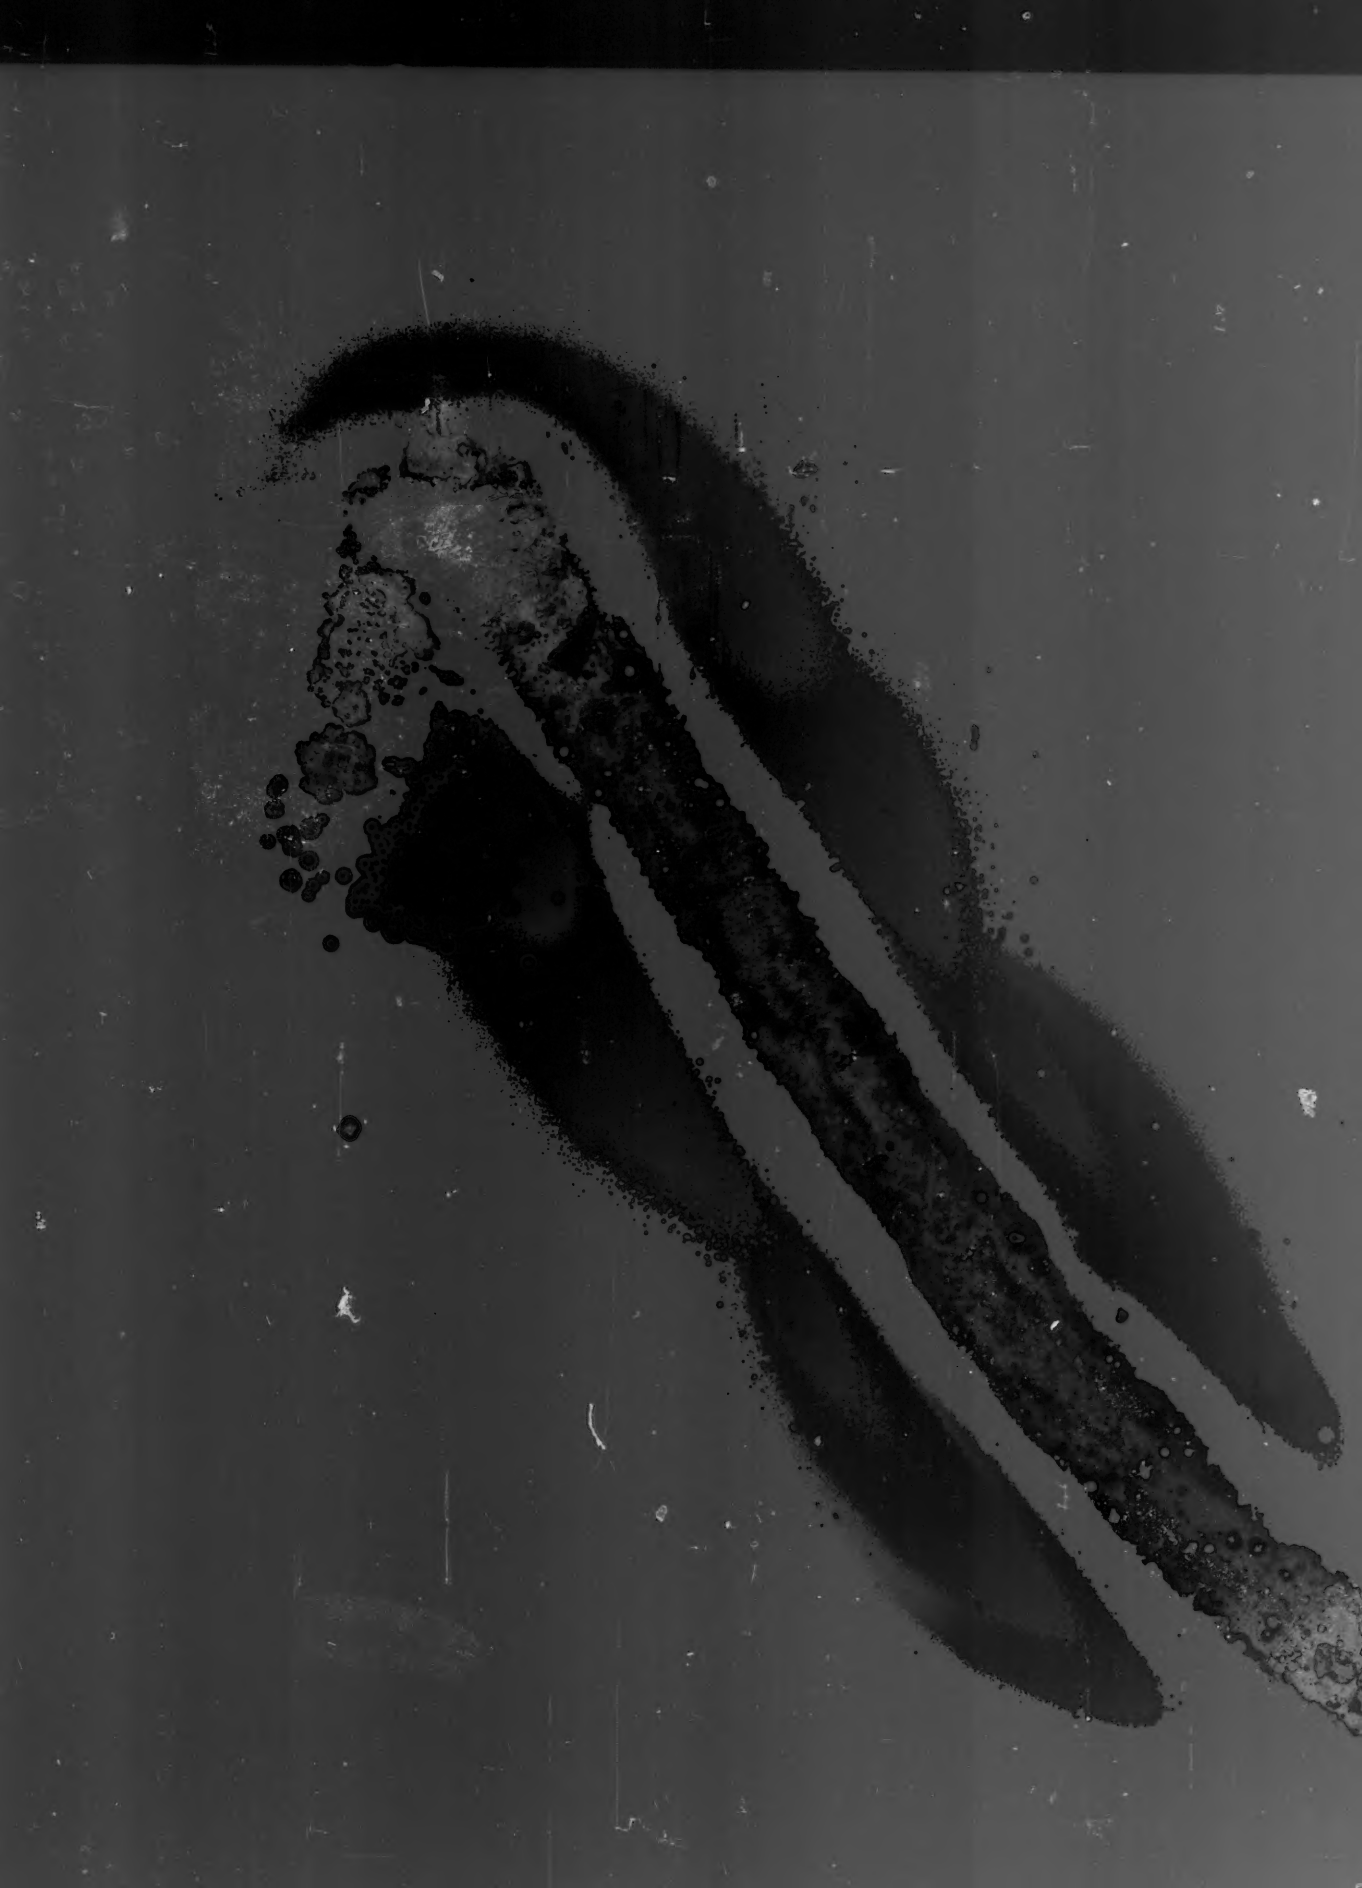
gout (*case report*) 589
Clavicles, medial ends of the, sternum, and upper segments of the anterior ribs, sternocostoclavicular hyperostosis affecting the (*case report*) 70
Clear-cell sarcoma plantar aspect of right foot (*case report*) 325
Clear-cell variant of femur: chondroblastic osteosarcoma (*case report*) 336
Clinical, radiographic, pathologic-anatomic, and prognostic study of 16 cases. Primary leiomyosarcoma of bone 364
Clinical Tietze syndrome, radiographic findings in patients with 517
Clinicoradiological study of 60 patients. Sacrococcygeal chordoma 37
Collar, Nec-Loc cervical immobilization, pseudofractures due to 460
Computed tomographic analysis: intra-articular calcaneal fractures 105
Computed tomographic and magnetic resonance findings – calf hematoma 393
Computed tomographic appearances of cherubism . . . 6
Computed tomographic features: chronic septic arthritis of the adult hip 513
Computed tomography and plain film appearance of a bony sequestration: significance and differential diagnosis 117
Computed tomography diagnosis of distal radioulnar subluxation 1
Computed tomography guidance for skeletal biopsy . . 644
Computed tomography, high resolution, of knee menisci 11
Computed tomography in visualising structures inside the metal cup in surface-replacement total hip arthroplasty, the potential of 201
Computed tomography, three-dimensional, in acute cervical spine trauma: a preliminary report 261
Computed tomography to quantitate bone formation after distraction epiphysiolysis in the rabbit, the use of . . 52
Congenital hip dislocation, ultrasonic investigation of the hip in newborns in the diagnosis of: classification and results of a screening program 275
Cortical, florid, and periosteal reactions due to stress fractures of the right femur and left calcaneus in a "break dancer" (*case report*) 581
Cyst, aneurysmal bone, of T8 (*case report*) 428
Cyst, bone, of the scapula, solitary (unicameral, simple) (*case report*) 493
Cyst-like lesions, post-traumatic 403
Deformity of cervical spine and massive osteolysis, rheumatoid arthritis with; consequent neuropathic arthropathy of the shoulders (*Open-quiz solution, case report*) 232
Degenerative arthritis, secondary, bilateral scaphoid-radial encroachment as part of disruption of the scapholunate ligament with (*case report*) 670
Degenerative femorotibial joint disease, stress radiographs in the evaluation of 617
Destruction of sacrum, massive bone, myxopapillary ependymoma of filum terminale with (*case report*) 485
Diabetes mellitus, lipoatrophic (generalized lipodystrophy) (*Open-quiz solution, case report*) 320
Diagnosis, computed tomography, of distal radioulnar subluxation 1
Dialysis, long-term, radiologic features of a pyrophosphate-like arthropathy associated with 437
Digital subtraction arteriography, selective, in necrosis of the femoral head 270
Dislocation, congenital hip, ultrasonic investigation of the hip in newborns in the diagnosis of: classification and results of a screening program 275
Dislocations and thoracic fractures in motorcyclists . . 280
(Disseminated) polyostotic fibrous dysplasia (*case report*) 679
Distraction epiphysiolysis in the rabbit, the use of computed tomography to quantitate bone formation after 52
Dominant, autosomal, type of endosteal hyperostosis with unusual manifestations of sclerosis of the jaw bones 48
Dorsal defect of the patella: concept of its origin and relationship with bipartite and multipartite patella 304
Dyggve-Melchior-Clausen syndrome (DMCS) (*case report*) 422
Effusions, ultrasonography of hip joint 607
Elective whole-lung irradiation in osteosarcoma treatment: appearance of bilateral breast cancer in two long-term survivors 133
Enchondromatosis, multiple (Ollier disease) with severe vertebral changes (*case report*) 236
(Enchondromatosis) Ollier disease (*case report*) 61
Endodermal sinus tumor, primary mediastinal, with skeletal metastases (*Open-quiz solution, case report*) . . . 568
Endosteal bone formation, reactive 545
Endosteal hyperostosis, autosomal dominant type of, with unusual manifestations of sclerosis of the jaw bones 48
Eosinophilic granuloma of the acromion (*case report*) 333
Ependymoma, myxopapillary, of filum terminale with massive bone destruction of sacrum (*case report*) . . 485
Epiphyseal fusion, premature, and extramedullary hematopoiesis in thalassemia 533
Epiphysiolysis, distraction, in the rabbit, the use of computed tomography to quantitate bone formation after 52
Epiphysis, the magnetic resonance imaging appearance of cartilaginous tumors involving the, at 1·5 Tesla . . 647
Erratum 435
Experimentally induced arthritis in rats, phosphorus-31 magnetic resonance spectroscopy of 183
Extramedullary hematopoiesis and premature epiphyseal fusion in thalassemia 533
(Fasciitis ossificans, pseudosarcomatous fibromatosis, parosteal fasciits) florid reactive periostitis of the proximal phalanx of the fourth finger (*case report*) . . . 163
Females, ankylosing spondylitis presenting as juxta-articular masses in 142
Femora, hairy cell leukemia infiltrating the (*case report*) 82
Femoral head notch 19
Femoral head, selective digital subtraction arteriography in necrosis of the 270
Femorotibial joint disease, degenerative, stress radiographs in the evaluation of 617
Femur, clear-cell variant of: chondroblastic osteosarcoma (*case report*) 336
Femur (multicentric) and innominate bones, malignant fibrous histiocytoma of (*case report*) 74
Femur, right, and left calcaneus in a "break dancer", florid cortical and periosteal reactions due to stress fractures of the (*case report*) 581
Femur, subperiosteal malignant fibrous histiocytoma of thigh, with involvement of (*case report*) 584
Fibroma, chondromyxoid, of the calcaneus (*case report*) 675
(Fibromatosis, pseudosarcomatous, fasciitis ossificans, parosteal fasciits) florid reactive periostitis of the proximal phalanx of the fourth finger (*case report*) . . . 163
Fibrous dysplasia, polyostotic (disseminated) (*case report*) 679
Fibrous histiocytoma, malignant, of innominate bones and femur (multicentric) (*case report*) 74
Fibrous histiocytoma, subperiosteal malignant, of thigh, with involvement of femur (*case report*) 584

Fibroxanthomas, multiple skeletal: radiologic-pathologic correlation of 72 cases 353
Filum terminale, myxopapillary ependymoma of, with massive bone destruction of sacrum (*case report*) . . 485
Finger, fourth, florid reactive periostitis of the proximal phalanx of the (parosteal fasciitis, pseudosarcomatous fibromatosis, fasciitis ossificans) (*case report*) . . . 163
Florid cortical and periosteal reactions due to stress fractures of the right femur and left calcaneus in a "break dancer" (*case report*) 581
Florid reactive periostitis of the proximal phalanx of the fourth finger (parosteal fasciitis, pseudosarcomatous fibromatosis, fasciitis ossificans) (*case report*) . . . 163
Foot and hand, metastatic tumours of bones of the. A comparative review and report of 43 additional cases 387
Foot, Madura (mycetoma pedis) (*case report*) 577
Foot, right, clear-cell sarcoma plantar aspect of (*case report*) 325
Fracture, pathological, intraosseous ganglion of the distal end of the ulna with a (*Open-quiz solution, case report*) 153
Fractures, intra-articular calcaneal: computed tomographic analysis 105
Fractures, stress, of the right femur and left calcaneus in a "break dancer", florid cortical and periosteal reactions due to (*case report*) 581
Fractures, thoracic, and dislocations in motorcyclists . . 280
Fractures, unrecognized, of the carpus, helpful adjuvant for: the carpal tunnel view 45
Friction by pes anserinus (*Open-quiz solution, case report*) 57
Fusion, lumbar spinal, painful pseudarthrosis following: detection by combined SPECT and planar bone scintigraphy 136
Ganglion, intraosseous, of the distal end of the ulnar with a pathological fracture (*Open-quiz solution, case report*) 153
Giant cell tumor of bone, the role of magnetic resonance imaging in 635
Glenohumeral joint diseases, magnetic resonance imaging of 285
Gouty arthritis, bilateral acromioclavicular, with pseudotumor of the outer end of the right clavicle; saturnine gout (*case report*) 589
Granulocytic sarcoma (GS) with hypereosinophilic syndrome (HES) (*case report*) 425
Granuloma, eosinophilic, of the acromion (*case report*) 333
Granulomatous pseudotumors in total joint replacement 146
Growing bone, radiographic manifestations of experimental aluminum toxicity in 209
Hairy cell leukemia infiltrating the femora (*case report*) 82
Hand and foot, metastatic tumours of bones of the. A comparative review and report of 43 additional cases 387
Hand, cadaver, imaging studies of the, using transmission ultrasound 474
Hand, evaluation of radiographic abnormalities of the, in patients with the Mayer-Rokitansky-Küster-Hauser syndrome 227
Hands in leprosy, ten year follow-up of the: bone loss in limbs with decreased or absent sensation 452
Hematoma, calf – computed tomographic and magnetic resonance findings 393
Hematopoiesis, extramedullary, and premature epiphyseal fusion in thalassemia 533
High signal intensity soft tissue masses on TI weighted pulsing sequences 30
High-resolution magnetic resonance imaging of the wrist: normal anatomy 128
Hip, adult, chronic septic arthritis of the: computed tomographic features 513
(Hip, analgesic) unilateral, rapidly destructive arthropathy of the hip (*case report*) 342
Hip arthroplasty, total, the potential of computed tomography in visualising structures inside the metal cup in surface-replacement 201
Hip joint effusions, ultrasonography of 607
Hip replacement, total, measurement and restoration of equality in length of the lower limbs in 442
Hip, right, synovial chondromatosis (osteochondromatosis) of the: "hidden" radiological manifestations (*case report*) 504
Hip, symptomatic, in childhood: scintigraphic findings in the presence of a normal radiograph 383
Hip, ultrasonic investigation of the, in newborns in the diagnosis of congenital hip dislocation: classification and results of a screening program 275
(Histiocytic, diffuse, or malignant lymphoma, diffuse, large cell B-cell immunophenotype) non-Hodgkin lymphoma (*case report*) 74
Histiocytoma, malignant fibrous, of innominate bones and femur (multicentric) (*case report*) 74
Histiocytoma, subperiosteal malignant fibrous, of thigh, with involvement of femur (*case report*) 584
Hodgkin disease, nodular sclerosing, involving sternum and chest wall (*case report*) 166
Hodgkin disease, postradiation sarcoma of bone in . . 524
Humerus in case 2 and ulna in case 1, osteolytic phase of Paget disease affecting the (*case report*) 499
Hypereosinophilic syndrome, granulocytic sarcoma with (*case report*) 425
Hyperostosis, autosomal dominant type of endosteal, with unusual manifestations of sclerosis of the jaw bones 48
Hyperostosis of the adjacent ribs, osteoid osteoma of left 6th rib with inflammatory reaction in the adjacent pleura and (*case report*) 601
Hyperostosis, sternocostoclavicular, affecting the sternum, medial ends of the clavicles and upper segments of the anterior ribs (*case report*) 70
Idiopathic synovial chondromatosis in two unusual sites: inferior radioulnar joint and ischial bursa 205
Imaging, magnetic resonance, a pitfall in: soft tissue pseudotumor following intramuscular injection of "DPT" 469
Imaging, magnetic resonance, appearance of cartilaginous tumors involving the epiphysis at 1·5 Tesla 647
Imaging, magnetic resonance, in giant cell tumor of bone, the role of 635
Imaging, magnetic resonance, of glenohumeral joint diseases 285
Imaging, magnetic resonance, of osteosarcoma 23
Imaging, magnetic resonance of pigmented villonodular synovitis: a report of two cases 316
Imaging studies of the cadaver hand using transmission ultrasound 474
Immobilization collar, Nec-Loc cervical, pseudofractures due to 460
(Immunophenotype, diffuse histiocytic or malignant lymphoma, diffuse, large cell B-cell) non-Hodgkin lymphoma (*case report*) 74
Inflammatory reaction in the adjacent pleura and hyperostosis of the adjacent ribs, osteoid osteoma of left 6th rib with (*case report*) 601
Injection, intramuscular, of "DPT", soft tissue pseudotumor following: a pitfall in magnetic resonance imaging 469
Injection technique, three compartment, the value of the: wrist arthrography 539
Innominate bones and femur (multicentric), malignant fibrous histiocytoma of (*case report*) 74

Intra-articular calcaneal fractures: computed tomographic analysis . . . 105
Intramuscular injection of "DPT", soft tissue pseudotumor following: a pitfall in magnetic resonance imaging 469
Intraosseous ganglion of the distal end of the ulnar with a pathological fracture (*Open-quiz solution, case report*) 153
Irradiation, elective whole-lung, in osteosarcoma treatment: appearance of bilateral breast cancer in two long-term survivors . . . 133
Ischemic necrosis of osteochondroma of tibia (*case report*) 416
Ischial bursa and inferior radioulnar joint: idiopathic synovial chondromatosis in two unusual sites . . . 205
Jaw bones, sclerosis of the, autosomal dominant type of endosteal hyperostosis with unusual manifestations of 48
Joint, ball-and-socket ankle . . . 447
Joint disease, degenerative femorotibial, stress radiographs in the evaluation of . . . 617
Joint effusions, hip, ultrasonography of . . . 607
Joint replacement, total, granulomatous pseudotumors in 146
Jumping, water ski, spinal column damage from . . . 612
Juxta-articular masses in females, ankylosing spondylitis presenting as . . . 142
Klippel-Trenaunay syndrome of right lower extremity (*Open-quiz solution, case report*) . . . 652
Knee, magnetic resonance imaging in the evaluation of suspected osteonecrosis of the . . . 121
Knee menisci, high resolution computed tomography of 11
Knee, primary synovial osteochondromatosis of the, with extensive bone formation observed over a period of 13 years (*case report*) . . . 660
Legg-Calve-Perthes disease, acute chondrolysis complicating . . . 377
Leiomyoma, calcified, of the soft tissues of the right buttock (*case report*) . . . 252
Leiomyosarcoma, primary, of bone. A clinical, radiographic, pathologic-anatomic, and prognostic study of 16 cases . . . 364
Leprosy, ten year follow-up of the hands in: bone loss in limbs with decreased or absent sensation . . . 452
Lesions of the ligamentum bifurcatum of the midfoot, radiologic findings in . . . 114
Lesions, post-traumatic cyst-like . . . 403
Leukemia, adult T-cell (ATL) (*case report*) . . . 412
Leukemia, hairy cell, infiltrating the femora (*case report*) 82
Ligament, scapholunate, with secondary degenerative arthritis, bilateral scaphoid-radial encroachment as part of disruption of the (*case report*) . . . 670
Ligamentum bifurcatum of the midfoot, radiologic findings in lesions of the . . . 114
Limbs, bone loss in, with decreased or absent sensation: ten year follow-up of the hands in leprosy . . . 452
Limbs, lower, in total hip replacement, measurement and restoration of equality in length of the . . . 442
Lipoatrophic diabetes mellitus (generalized lipodystrophy) (*Open-quiz solution, case report*) . . . 320
(Lipodystrophy, generalized) lipoatrophic diabetes mellitus (*Open-quiz solution, case report*) . . . 320
Loss, bone, in limbs with decreased or absent sensation: ten year follow-up of the hands in leprosy . . . 452
Lumbar spinal fusion, painful pseudarthrosis following: detection by combined SPECT and planar bone scintigraphy . . . 136
Lung, whole, elective irradiation in osteosarcoma treatment: appearance of bilateral breast cancer in two long-term survivors . . . 133
Lymphoma, non-Hodgkin (diffuse histiocytic or malignant lymphoma, diffuse, large cell B-cell immunophenotype) (*case report*) . . . 74
Madura foot (mycetoma pedis) (*case report*) . . . 577
Magnetic resonance and computed tomographic findings – calf hematoma . . . 393
Magnetic resonance imaging, a pitfall in: soft tissue pseudotumor following intramuscular injection of "DPT" 469
Magnetic resonance imaging appearance of cartilaginous tumors involving the epiphysis at 1·5 Tesla . . . 647
Magnetic resonance imaging, high-resolution, of the wrist: normal anatomy . . . 128
Magnetic resonance imaging in giant cell tumor of bone, the role of . . . 635
Magnetic resonance imaging in the evaluation of suspected osteonecrosis of the knee . . . 121
Magnetic resonance imaging of glenohumeral joint diseases . . . 285
Magnetic resonance imaging of osteosarcoma . . . 23
Magnetic resonance imaging of pigmented villonodular synovitis: a report of two cases . . . 316
Magnetic resonance spectroscopy, phosphorus-31, of experimentally induced arthritis in rats . . . 183
Malignant chondroid syringoma, skeletal metastases secondary to (*case report*) . . . 657
Malignant fibrous histiocytoma of innominate bones and femur (multicentric) (*case report*) . . . 74
Malignant fibrous histiocytoma, subperiosteal, of thigh, with involvement of femur (*case report*) . . . 584
(Malignant or diffuse histiocytic lymphoma, diffuse, large cell B-cell immunophenotype) non-Hodgkin lymphoma (*case report*) . . . 74
Malignant primary osteoporosis (*Open-quiz solution, case report*) . . . 407
Malignant schwannoma of soft tissue of the thigh (*case report*) . . . 573
Mastocytosis, systemic (*case report*) . . . 158
Mayer-Rokitansky-Küster-Hauser syndrome, evaluation of radiographic abnormalities, of the hand in patients with the . . . 227
Measurement and restoration of equality in length of the lower limbs in total hip replacement . . . 442
Mediastinal endodermal sinus tumor, primary, with skeletal metastases (*Open-quiz solution, case report*) . . . 568
Menisci, knee, high resolution computed tomography of 11
Metachronous, low-grade, sclerosing osteogenic sarcoma, multicentric (*case report*) . . . 592
Metal cup in surface-replacement total hip arthroplasty, the potential of computed tomography in visualising structures inside the . . . 201
Metastases, bone, pheochromocytoma presenting as musculoskeletal pain from . . . 552
Metastases, bone, the periosteal sunburst reaction to. A literature review and report of 20 additional cases 629
Metastases, skeletal, primary mediastinal endodermal sinus tumor with (*Open-quiz solution, case report*) . . . 568
Metastases, skeletal, secondary to malignant chondroid syringoma (*case report*) . . . 657
Metastatic tumours of bones of the hand and foot. A comparative review and report of 43 additional cases 387
Microdensitometric analysis of bone structures in X-ray images . . . 190
Midfoot, radiologic findings in lesions of the ligamentum bifurcatum of the . . . 114
Motorcyclists, thoracic fractures and dislocations in . . . 280
Mucopolysaccharide, unclassified, in the urine, spondylometaphyseal chondroplasia with an ("generalized enchondromatosis with mucopolysaccharidiuria") (*case report*) . . . 175

Multicentric, metachronous, low-grade, sclerosing osteogenic sarcoma (*case report*) . . . 592
Multiple enchondromatosis (Ollier disease) with severe vertebral changes (*case report*) . . . 236
Musculoskeletal pain from bone metastases, pheochromocytoma presenting as . . . 552
(Mycetoma pedis) Madura foot (*case report*) . . . 577
Myxopapillary ependymoma of filum terminale with massive bone destruction of sacrum (*case report*) . . . 485
Nec-Loc cervical immobilization collar, pseudofractures due to . . . 460
Necrosis, ischemic, of osteochondroma of tibia (*case report*) . . . 416
Necrosis of the femoral head, selective digital subtraction arteriography in . . . 270
Neuropathic arthropathy of the shoulders, consequent; rheumatoid arthritis with massive osteolysis and deformity of cervical spine (*Open-quiz solution, case report*) 232
Newborns, ultrasonic investigation of the hip in, in the diagnosis of congenital hip dislocation: classification and results of a screening program . . . 275
Nodular sclerosing Hodgkin disease involving sternum and chest wall (*case report*) . . . 166
Non-Hodgkin lymphoma (diffuse histiocytic or malignant lymphoma, diffuse, large cell B-cell immunophenotype) (*case report*) . . . 74
Notch, femoral head . . . 19
Odontoideum, os, with an ossified pedicle lying between the os and the body of C2 (*case report*) . . . 240
Ollier disease (enchondromatosis) (*case report*) . . . 61
Ollier disease, multiple enchondromatosis with severe vertebral changes (*case report*) . . . 236
Os odontoideum with an ossified pedicle lying between the os and the body of C2 (*case report*) . . . 240
Osseous changes, productive, about the wrist in rheumatoid arthritis . . . 397
(Ossificans, fasciitis, pseudosarcomatous fibromatosis, parosteal fasciitis) florid reactive periostitis of the proximal phalanx of the fourth finger (*case report*) 163
Ossified pedicle lying between the os and the body of C2, os odontoideum with an (*case report*) . . . 240
Osteoblastoma, recurrent sacral (*case report*) . . . 666
Osteochondroma of the cervical spine (*case report*) . . . 170
Osteochondroma of tibia, ischemic necrosis of (*case report*) . . . 416
Osteochondromatosis, primary synovial, of the knee with extensive bone formation observed over a period of 13 years (*case report*) . . . 660
(Osteochondromatosis) synovial chondromatosis of the right hip: "hidden" radiological manifestations (*case report*) . . . 504
Osteochondromatous proliferation, bizarre parosteal (*Open-quiz solution, case report*) . . . 481
Osteodystrophy, healed renal, distal phalangeal brachydactyly secondary to . . . 312
Osteogenesis imperfecta, radiological manifestations of bisphosphonate treatment with ADP in a child suffering from . . . 360
Osteogenic sarcoma, multicentric, metachronous, low-grade, sclerosing (*case report*) . . . 592
Osteoid osteoma of left 6th rib with inflammatory reaction in the adjacent pleura and hyperostosis of the adjacent ribs (*case report*) . . . 601
Osteolysis, massive, rheumatoid arthritis with, and deformity of cervical spine; consequent neuropathic arthropathy of the shoulders (*Open-quiz solution, case report*) . . . 232
Osteolysis, massive, seventeen year follow-up and autopsy findings in a case of . . . 291
Osteolytic phase of Paget disease affecting the ulna in case 1 and the humerus in case 2 (*case report*) . . . 499
Osteoma, osteoid, of left 6th rib with inflammatory reaction in the adjacent pleura and hyperostosis of the adjacent ribs (*case report*) . . . 601
Osteonecrosis, suspected, of the knee, magnetic resonance imaging in the evaluation of . . . 121
Osteoporosis, malignant primary (*Open-quiz solution, case report*) . . . 407
Osteosarcoma, chondroblastic: clear-cell variant of femur (*case report*) . . . 336
Osteosarcoma, magnetic resonance imaging of . . . 23
Osteosarcoma of left 12th rib, parosteal (*case report*) . . . 597
Osteosarcoma of the soft tissues of the distal end of the thigh (*case report*) . . . 489
Osteosarcoma, parosteal (*case report*) . . . 246
Osteosarcoma, small-cell . . . 621
Osteosarcoma, telangiectatic, the radiological appearances of. A study of 14 cases . . . 196
Osteosarcoma treatment, elective whole-lung irradiation in: appearance of bilateral breast cancer in two long-term survivors . . . 133
Paget disease, osteolytic phase of, affecting the ulna in case 1 and the humerus in case 2 (*case report*) . . . 499
Pain, musculoskeletal, from bone metastases, pheochromocytoma presenting as . . . 552
Painful pseudarthrosis following lumbar spinal fusion: detection by combined SPECT and planar bone scintigraphy . . . 136
(Parosteal fasciitis, pseudosarcomatous fibromatosis, fasciitis ossificans) florid reactive periostitis of the proximal phalanx of the fourth finger (*case report*) . . . 163
Parosteal osteochondromatous proliferation, bizarre (*Open-quiz solution, case report*) . . . 481
Parosteal osteosarcoma (*case report*) . . . 246
Parosteal osteosarcoma of left 12th rib (*case report*) . . . 597
Patella, dorsal defect of the: concept of its origin and relationship with bipartite and multipartite patella 304
Pathological fracture, intraosseous ganglion of the distal end of the ulna with a (*Open-quiz solution, case report*) 153
Pathologic-anatomic, clinical, radiographic, and prognostic study of 16 cases. Primary leiomyosarcoma of bone 364
Pedicle, ossified, lying between the os and the body of C2, os odontoideum with an (*case report*) . . . 240
Periosteal and florid cortical reactions due to stress fractures of the right femur and left calcaneus in a "break dancer" (*case report*) . . . 581
Periosteal sunburst reaction to bone metastases. A literature review and report of 20 additional cases . . . 629
Periostitis, florid reactive, of the proximal phalanx of the fourth finger (parosteal fasciitis, pseudosarcomatous fibromatosis, fasciitis ossificans) (*case report*) . . . 163
Pes anserinus, friction by (*Open-quiz solution, case report*) 57
Phalangeal brachydactyly, distal, secondary to healed renal osteodystrophy . . . 312
Phalanx, proximal, of the fourth finger, florid reactive periostitis of the (parosteal fasciitis, pseudosarcomatous fibromatosis, fasciitis ossificans) (*case report*) 163
Pheochromocytoma presenting as musculoskeletal pain from bone metastases . . . 552
Phosphorus-31 magnetic resonance spectroscopy of experimentally induced arthritis in rats . . . 183
Pigmented villonodular synovitis, magnetic resonance imaging of: a report of two cases . . . 316
Planar bone scintigraphy and SPECT, detection by com-

bined: painful pseudarthrosis following lumbar spinal fusion . . . 136
Plantar aspect of right foot, clear-cell sarcoma (*case report*) . . . 325
Pleura, osteoid osteoma of left 6th rib with inflammatory reaction in the adjacent, and hyperostosis of the adjacent ribs (*case report*) . . . 601
Polyostotic fibrous dysplasia (disseminated) (*case report*) 679
Postradiation sarcoma of bone in Hodgkin disease . . . 524
Post-traumatic cyst-like lesions . . . 403
Premature epiphyseal fusion and extramedullary hematopoiesis in thalassemia . . . 533
Primary mediastinal endodermal sinus tumor with skeletal metastases (*Open-quiz solution, case report*) . . . 568
Progeroid syndrome, skeletal abnormalities of acrogeria 463
Prognostic, clinical, radiographic, and pathologic-anatomic study of 16 cases. Primary leiomyosarcoma of bone . . . 364
Proliferation, bizarre parosteal osteochondromatous (*Open-quiz solution, case report*) . . . 481
Pseudarthrosis, painful, following lumbar spinal fusion: detection by combined SPECT and planar bone scintigraphy . . . 136
Pseudofractures due to Nec-Loc cervical immobilization collar . . . 460
(Pseudosarcomatous fibromatosis, parosteal fasciitis, fasciitis ossificans) florid reactive periostitis of the proximal phalanx of the fourth finger (*case report*) . . . 163
Pseudotumor of the outer end of the right clavicle, bilateral acromioclavicular gouty arthritis with: saturnine gout (*case report*) . . . 589
Pseudotumor, soft tissue, following intramuscular injection of "DPT": a pitfall in magnetic resonance imaging . . . 469
Pseudotumors, granulomatous, in total joint replacement 146
Punctata, chondrodysplasia. Report of two cases . . . 223
Pyrophosphate arthropathy of the wrist, scaphoid-trapezium-trapezoid dissociation in (*case report*) . . . 685
Pyrophosphate-like arthropathy associated with long-term dialysis, radiologic features of a . . . 437
Rabbit, the use of computed tomography to quantitate bone formation after distraction epiphysiolysis in the 52
Radiograph, normal, scintigraphic findings in the presence of a: the symptomatic hip in childhood . . . 383
Radiographic abnormalities of the hand in patients with the Mayer-Rokitansky-Küster-Hauser syndrome, evaluation of . . . 227
Radiographic, clinical, pathologic-anatomic, and prognostic study of 16 cases. Primary leiomyosarcoma of bone . . . 364
Radiographic findings in patients with clinical Tietze syndrome . . . 517
Radiographic manifestations of experimental aluminum toxicity in growing bone . . . 209
Radiographs, stress, in the evaluation of degenerative femorotibial joint disease . . . 617
Radiologic features of a pyrophosphate-like arthropathy associated with long-term dialysis . . . 437
Radiologic findings in lesions of the ligamentum bifurcatum of the midfoot . . . 114
Radiological appearances of telangiectatic osteosarcoma. A study of 14 cases . . . 196
Radiological manifestations, "hidden": synovial chondromatosis (osteochondromatosis) of the right hip (*case report*) . . . 504
Radiological manifestations of bisphosphonate treatment with ADP in a child suffering from osteogenesis imperfecta . . . 360
Radiologic-pathologic correlation of 72 cases: multiple skeletal fibroxanthomas . . . 353
Radiology and skeletal elements in the subtibial region: incidence and significance . . . 298
Radioulnar joint, inferior, and ischial bursa: idiopathic synovial chondromatosis in two unusual sites . . . 205
Radioulnar subluxation, distal, computed tomography diagnosis of . . . 1
Rats, phosphorus-31 magnetic resonance spectroscopy of experimentally induced arthritis in . . . 183
Reactive endosteal bone formation . . . 545
Recurrent sacral osteoblastoma (*case report*) . . . 666
Renal osteodystrophy, healed, distal phalangeal brachydactyly secondary to . . . 312
Replacement, total hip, measurement and restoration of equality in length of the lower limbs in . . . 442
Replacement, total joint, granulomatous pseudotumors in 146
Resolution, high, computed tomography of knee menisci 11
Resonance imaging, magnetic, of osteosarcoma . . . 23
Restoration of equality in length and measurement of the lower limbs in total hip replacement . . . 442
Retinoic acid, 13-cis, the spectrum of skeletal changes associated with long-term administration of . . . 91
Retropharyngeal soft tissue measurements in trauma of the adult cervical spine, the value of . . . 98
Reversed calcaneal spurs in children . . . 17
Rheumatoid arthritis, bone mass in patients with . . . 556
Rheumatoid arthritis, productive osseous changes about the wrist in . . . 397
Rheumatoid arthritis with massive osteolysis and deformity of cervical spine; consequent neuropathic arthropathy of the shoulders (*Open-quiz solution, case report*) 232
Rib, left 12th, parosteal osteosarcoma of (*case report*) 597
Rib, osteoid osteoma of left 6th, with inflammatory reaction in the adjacent pleura and hyperostosis of the adjacent ribs (*case report*) . . . 601
Ribs, upper segments of the anterior, sternum, medial ends of the clavicles, sternocostoclavicular hyperostosis affecting the (*case report*) . . . 70
Sacral osteoblastoma, recurrent (*case report*) . . . 666
Sacrococcygeal chordoma. A clinicoradiological study of 60 patients . . . 37
Sacrum, myxopapillary ependymoma of filum terminale with massive bone destruction of (*case report*) . . . 485
Sarcoma, clear-cell, plantar aspect of right foot (*case report*) . . . 325
Sarcoma, granulocytic, with hypereosinophilic syndrome (*case report*) . . . 425
Sarcoma, multicentric, metachronous, low-grade, sclerosing osteogenic (*case report*) . . . 592
Sarcoma, postradiation, of bone in Hodgkin disease . . . 524
Saturnine gout: bilateral acromioclavicular gouty arthritis, with pseudotumor of the outer end of the right clavicle (*case report*) . . . 589
Scaphoid-radial encroachment, bilateral, as part of disruption of the scapholunate ligament with secondary degenerative arthritis (*case report*) . . . 670
Scaphoid-trapezium-trapezoid dissociation in pyrophosphate arthropathy of the wrist (*case report*) . . . 685
Scapholunate ligament with secondary degenerative arthritis, bilateral scaphoid-radial encroachment as part of disruption of the (*case report*) . . . 670
Scapula, solitary (unicameral, simple) bone cyst of the (*case report*) . . . 493
Schwannoma, malignant, of soft tissue of the thigh (*case report*) . . . 573

Scintigraphic findings in the presence of a normal radiograph: the symptomatic hip in childhood 383
Scintigraphy, planar bone, and SPECT, detection by combined: painful pseudarthrosis following lumbar spinal fusion 136
Sclerosing, nodular, Hodgkin disease involving sternum and chest wall (*case report*) 166
Sclerosing osteogenic sarcoma, multicentric, metachronous, low-grade (*case report*) 592
Sclerosis of the jaw bones, autosomal dominant type of endosteal hyperostosis with unusual manifestations of 48
Screening program, classification and results of a: ultrasonic investigation of the hip in newborns in the diagnosis of congenital hip dislocation 275
Scurvy (*case report*) 67
Sensation, bone loss in limbs with decreased or absent: ten year follow-up of the hands in leprosy 452
Septic arthritis, chronic, of the adult hip: computed tomographic features 513
Sequestration, bony, computed tomography and plain film appearance of a: significance and differential diagnosis 117
Shoulders, consequent neuropathic arthropathy of the; rheumatoid arthritis with massive osteolysis and deformity of cervical spine (*Open-quiz solution, case report*) 232
Sinus tumor, primary mediastinal endodermal, with skeletal metastases (*Open-quiz solution, case report*) . . . 568
Skeletal abnormalities of acrogeria, a progeroid syndrome 463
Skeletal biopsy, computed tomography guidance for . . 644
Skeletal changes, spectrum of, associated with long-term administration of 13-cis-retinoic acid 91
Skeletal elements in the subtibial region, the radiology of: incidence and significance 298
Skeletal fibroxanthomas, multiple: radiologic-pathologic correlation of 72 cases 353
Skeletal metastases, primary mediastinal endodermal sinus tumor with (*Open-quiz solution, case report*) . . 568
Skeletal metastases secondary to malignant chondroid syringoma (*case report*) 657
Ski jumping, water, spinal column damage from 612
Small-cell osteosarcoma 621
Soft tissue masses, high signal intensity, on TI weighted pulsing sequences 30
Soft tissue measurements in trauma of the adult cervical spine, the value of retropharyngeal 98
Soft tissue of the thigh, malignant schwannoma of (*case report*) 573
Soft tissue pseudotumor following intramuscular injection of "DPT": a pitfall in magnetic resonance imaging 469
Soft tissues of the distal end of the thigh, osteosarcoma of the (*case report*) 489
Soft tissues of the right buttock, calcified leiomyoma of the (*case report*) 252
Solitary (unicameral, simple) bone cyst of the scapula (*case report*) 493
SPECT and planar bone scintigraphy, detection by combined: painful pseudarthrosis following lumbar spinal fusion 136
Spectroscopy, phosphorus-31 magnetic resonance, of experimentally induced arthritis in rats 183
Spinal column damage from water ski jumping 612
Spinal fusion, lumbar, painful pseudarthrosis following: detection by combined SPECT and planar bone scintigraphy 136
Spine, adult cervical, the value of retropharyngeal soft tissue measurements in trauma of the 98
Spine, cervical, osteochondroma of the (*case report*) . . 170
Spine, deformity of cervical, and massive osteolysis, rheumatoid arthritis with; consequent neuropathic arthropathy of the shoulders (*Open-quiz solution, case report*) 232
Spine trauma, acute cervical, three-dimensional computed tomography in: a preliminary report 261
Spondylitis, ankylosing, presenting as juxta-articular masses in females 142
Spondylometaphyseal chondroplasia with an unclassified mucopolysaccharide in the urine ("generalized enchondromatosis with mucopolysaccharidura) (*case report*) 175
Spondylosis on the outcome of chemonucleolysis, the effect of 560
Spurs, reversed calcaneal, in children 17
Sternocostoclavicular hyperostosis affecting the sternum, medial ends of the clavicles and upper segments of the anterior ribs (*case report*) 70
Sternum and chest wall, nodular sclerosing Hodgkin disease involving (*case report*) 166
Sternum, medial ends of the clavicles and upper segments of the anterior ribs, sternocostoclavicular hyperostosis affecting the (*case report*) 70
Stress fractures of the right femur and left calcaneus in a "break dancer", florid cortical and periosteal reactions due to (*case report*) 581
Stress radiographs in the evaluation of degenerative femorotibial joint disease 617
Subluxation, distal radioulnar, computed tomography diagnosis of 1
Subperiosteal malignant fibrous histiocytoma (MFH) of thigh, with involvement of femur (*case report*) . . . 584
Subtibial region, the radiology of skeletal elements in the: incidence and significance 298
Sunburst reaction, the periosteal, to bone metastases. A literature review and report of 20 additional cases 629
Survivors, two long-term, appearance of bilateral breast cancer in: elective whole-lung irradiation in osteosarcoma treatment 133
Symptomatic hip in childhood: scintigraphic findings in the presence of a normal radiograph 383
Synovial chondromatosis, idiopathic, in two unusual sites: inferior radioulnar joint and ischial bursa 205
Synovial chondromatosis (osteochondromatosis) of the right hip: "hidden" radiological manifestations (*case report*) 504
Synovial osteochondromatosis, primary, of the knee with extensive bone formation observed over a period of 13 years (*case report*) 660
Synovitis, pigmented villonodular, magnetic resonance imaging: a report of two cases 316
Systemic mastocytosis (*case report*) 158
T-cell leukemia, adult (ATL) (*case report*) 412
Telangiectatic osteosarcoma, the radiological appearances of. A study of 14 cases 196
Thalassemia, premature epiphyseal fusion and extramedullary hematopoiesis in 533
Thigh, malignant schwannoma of soft tissue of the (*case report*) 573
Thigh, osteosarcoma of the soft tissues of the distal end of the (*case report*) 489
Thigh, subperiosteal malignant fibrous histiocytoma of, with involvement of femur (*case report*) 584
Thoracic fractures and dislocations in motorcyclists . . 280
Three-dimensional computed tomography in acute cervical spine trauma: a preliminary report 261
Tibia, ischemic necrosis of osteochondroma of (*case re-*


port) 416
Tietze syndrome, clinical, radiographic findings in patients with 517
Tomographic, computed, analysis: intra-articular calcaneal fractures 105
Tomographic, computed, and magnetic resonance findings – calf hematoma 393
Tomographic features, computed: chronic septic arthritis of the adult hip 513
Tomographic, the computed, appearances of cherubism 6
Tomography, computed, and plain film appearance of a bony sequestration: significance and differential diagnosis 117
Tomography, computed, diagnosis of distal radioulnar subluxation 1
Tomography, computed, guidance for skeletal biopsy 644
Tomography, computed, in visualising structures inside the metal cup in surface-replacement total hip arthroplasty, the potential of 201
Tomography, computed, to quantitate bone formation after distraction epiphysiolysis in the rabbit, the use of 52
Tomography, high resolution computed, of knee menisci 11
Tomography, three-dimensional computed, in acute cervical spine trauma: a preliminary report 261
Toxicity, experimental aluminum, in growing bone, radiographic manifestations of 209
Transmission ultrasound, imaging studies of the cadaver hand using 474
Trauma, acute cervical spine, three-dimensional computed tomography in: a preliminary report 261
Trauma of the adult cervical spine, the value of retropharyngeal soft tissue measurements in 98
Treatment, osteosarcoma, elective whole-lung irradiation in: appearance of bilateral breast cancer in two long-term survivors 133
Triradiate cartilage, chondroblastoma arising in the. Report of two cases with review of the literature . . . 216
Tumor, giant cell, of bone, the role of magnetic resonance imaging in 635
Tumor, primary mediastinal endodermal sinus, with skeletal metastases (*Open-quiz solution, case report*) . . . 568
Tumors, cartilaginous, involving the epiphysis at 1·5 Tesla, the magnetic resonance imaging appearance of 647
Tumours, metastatic, of bones of the hand and foot. A comparative review and report of 43 additional cases 387
Ulna in case 1 and the humerus in case 2, osteolytic phase of Paget disease affecting the (*case report*) 499
Ulna with a pathological fracture, intraosseous ganglion of the distal end of the (*Open-quiz solution, case report*) 153
Ultrasonic investigation of the hip in newborns in the diagnosis of congenital hip dislocation: classification and results of a screening program 275
Ultrasonography of hip joint effusions 607
Ultrasound, transmission, imaging studies of the cadaver hand using 474
Unrecognized fractures of the carpus, helpful adjuvant for: the carpal tunnel view 45
Urine, spondylometaphyseal chondroplasia with an unclassified mucopolysaccharide in the ("generalized enchondromatosis with mucopolysaccharidiuria") (*case report*) 175
Vertebral changes, severe, multiple enchondromatosis (Ollier disease) with (*case report*) 236
Villonodular synovitis, pigmented, magnetic resonance imaging of: a report of two cases 316
Visualising structures inside the metal cup in surface-replacement total hip arthroplasty, the potential of computed tomography in 201
Wrist arthrography: the value of the three compartment injection technique 539
Wrist, high-resolution magnetic resonance imaging of the: normal anatomy 128
Wrist, productive osseous changes about the, in rheumatoid arthritis 397
Wrist, scaphoid-trapezium-trapezoid dissociation in pyrophosphate arthropathy of the (*cases report*) 685
Xanthomatosis, cerebrotendinous (*case report*) 346
X-ray images, microdensitometric analysis of bone structures in 190
